Prisma

PostgreSQL

PROJECTS

Next Gen Control Center (NGCC)

- A comprehensive admin dashboard system featuring 30+ interconnected models (Users, Roles, Permissions, Projects, Tickets, Tasks, Companies, Departments, etc.).
- Implemented role-based menus and access control for dynamic user-level permissioning.
- Built secure authentication/session management with **NextAuth.js** and JWT.
- Designed and managed complex entities including SLA policies, shift types, ticket journeys, and project types.
- Focused on real-time workflows, data integrity, and high usability for administrative operations.

Wosh

- Built responsive web apps for admin, user, driver, and laundry dashboards.
- Improved order management via intuitive admin interface.
- Integrated APIs for scheduling, real-time tracking, and payment processing.
- Enhanced user experience by implementing responsive designs and efficient workflows.

Capital Imports

- Converted Figma designs into a fully responsive website using Bootstrap for a product import business.

Daystar Care

- Designed a WordPress site focused on mobile responsiveness, SEO, and professional presentation for a healthcare company.
